

Data Analyst Bootcamp

CERTIFICATE

Final Project Completion

Presented to:

M. Althaf Kiram

This certifies that the participant has successfully completed the data analysis project titled "Unveiling Global Shark Attack Patterns from Raw Data to Interactive Dashboard" as part of the Data Analyst Bootcamp program at Nusacodes. The project involved thorough data cleaning of a complex dataset, feature engineering, and creation of an interactive dashboard using Google Sheets and Looker Studio. This achievement reflects the participant's ability to process real-world data, discover important patterns, and present insights through effective visualization. Achievement: Satisfactory
